Migrating Field Groups.....	7
Migrating Schemas.....	7
Migrating Datasets.....	8
Migrating Segments.....	8

Authentication

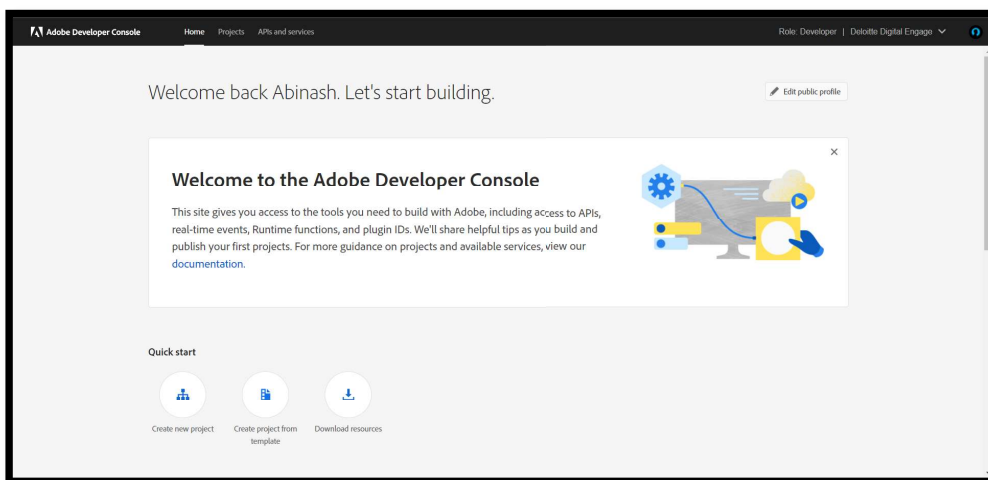

- After clicking on Get Started button in Homepage user is redirected to OAuth page for the Authentication.

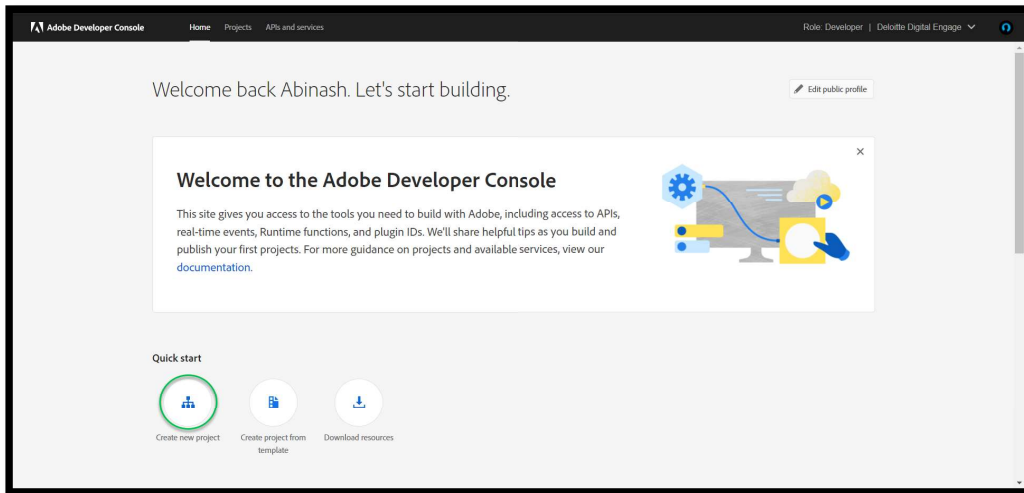

- For authentication, you will require the below 2 Files
 - Service Account (JWT) JSON File (e.g.: 675SapphireBison-27203-Service Account (JWT).json)
 - Private KEY File (e.g.: private.key)

Steps to get both the files:

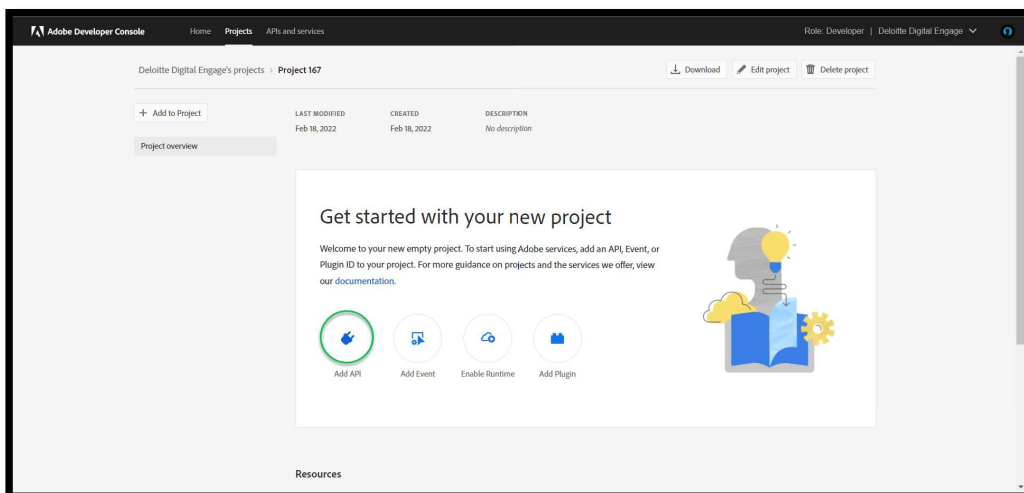

- Go to [Adobe Developer Console](#) and sign in with your Adobe ID. After signing in you'll be redirected to Developer Console Homepage. If you have already Project connected with AEP API then you can skip **Creating a new project** part.

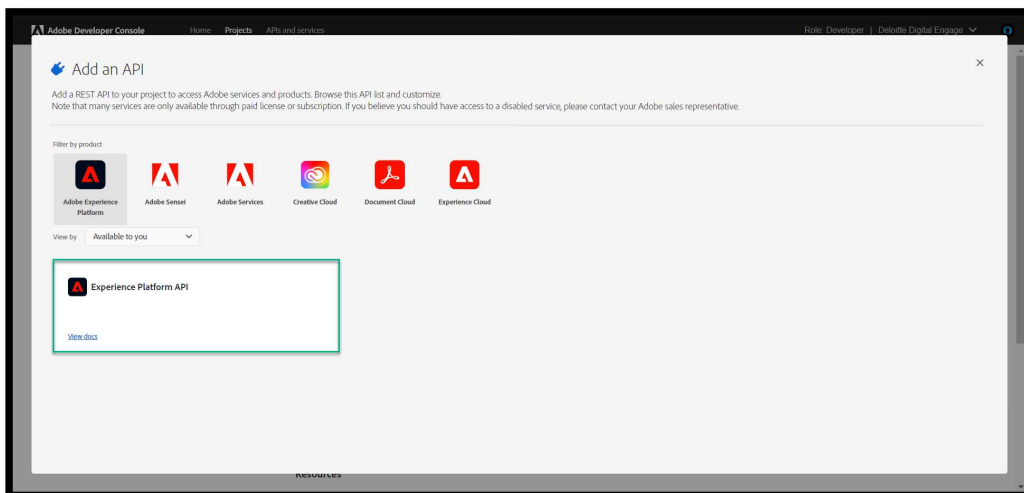

- Next, click on Create New Project.

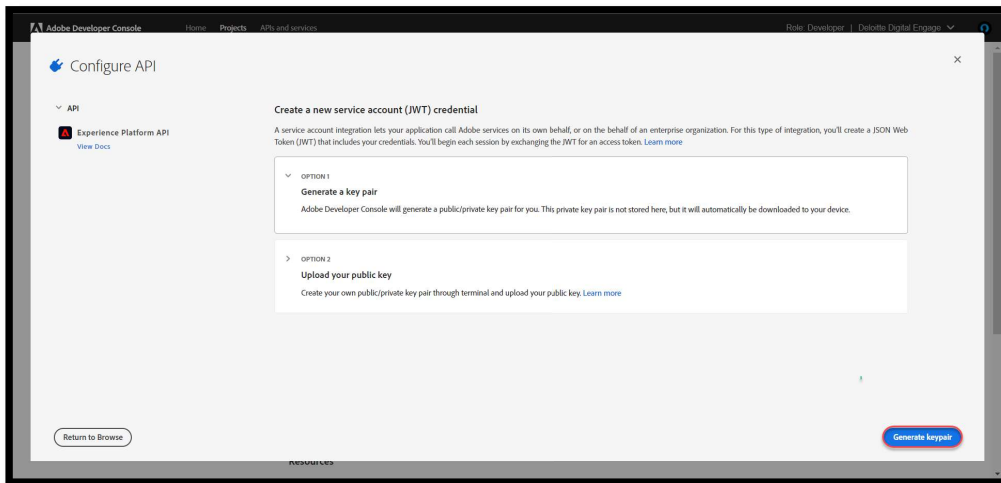

- Then, click on **Add API**.

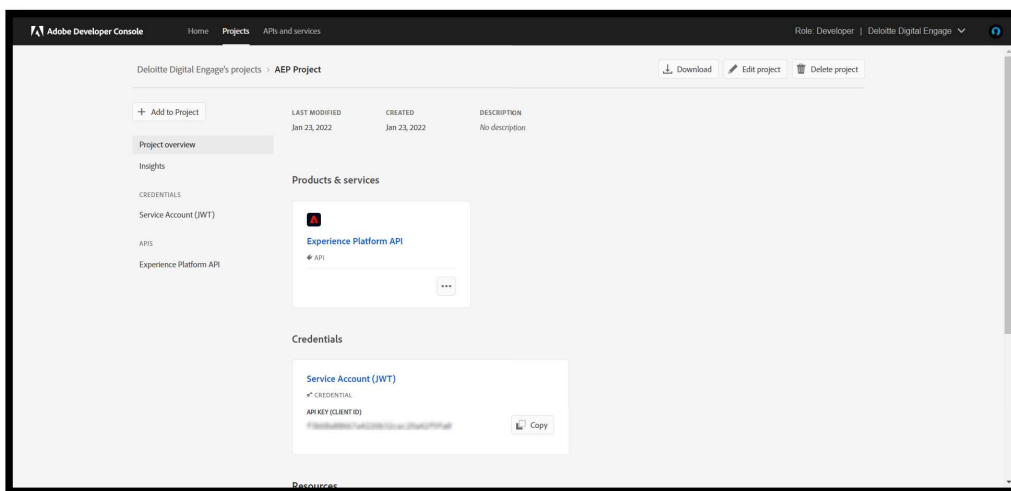

- Then Select **Adobe Experience Platform API**.

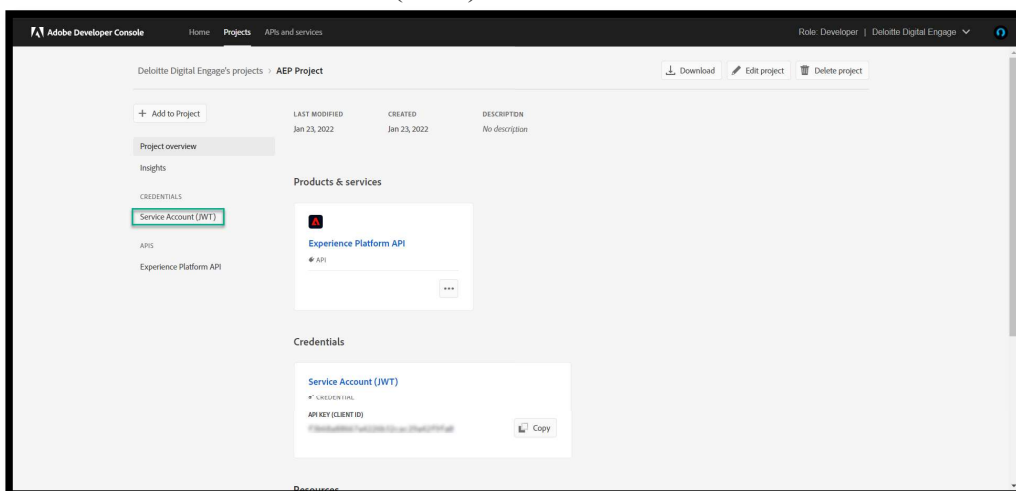

- Then **Generate a key pair**. After Clicking on Generate Keypair, it will automatically download a zip with the required **Private KEY**.

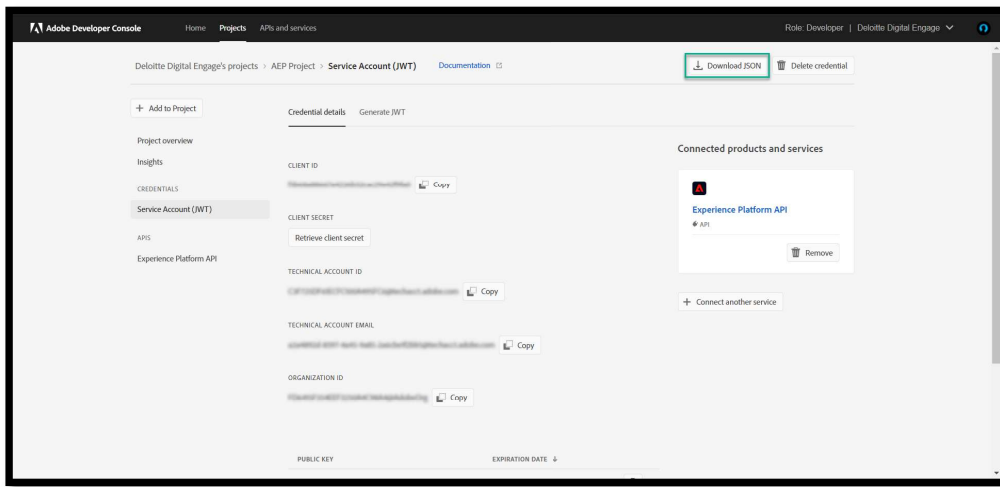

- Then it'll redirect to Project Home page.

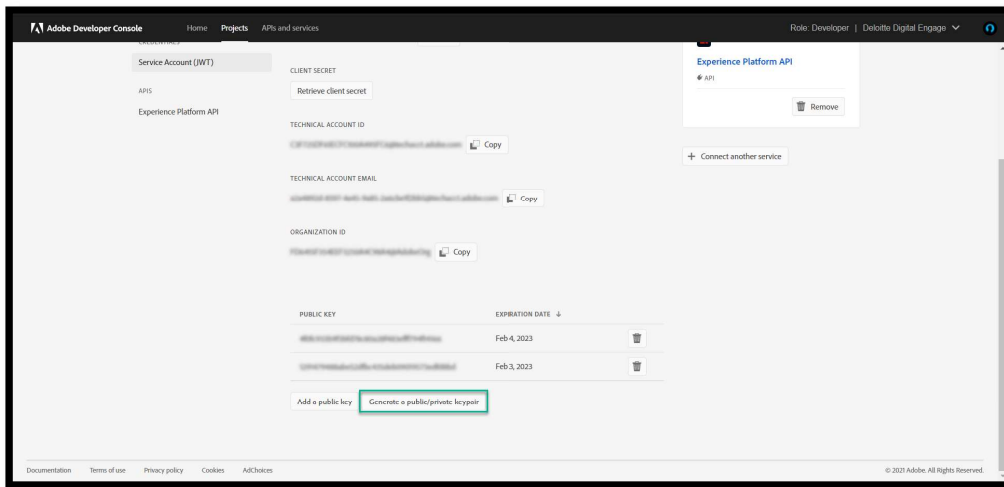

Then Click on **Service Account (JWT)**.

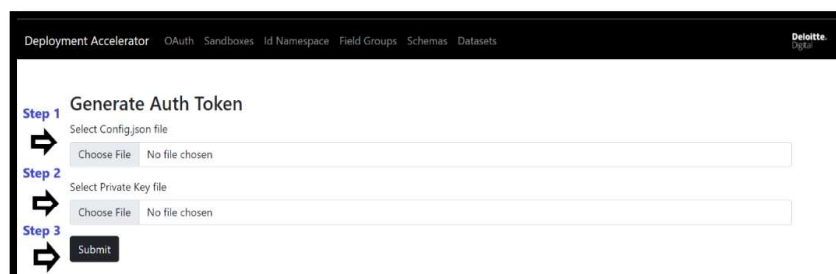

- Then Download the required **Service Account (JWT) JSON** File by clicking the **Download JSON** button.

- **Note:** If want to generate a new Key Pair, then in the above screenshot scroll down and generate another pair of **Public/Private Key Pair**. You'll get the **Private KEY** from the downloaded ZIP.

- Go to OAuth Page in the Accelerator
- Select Config.json file
- Select Private Key file
- Click on Submit to complete the authentication

Migrating Sandboxes

- Go to Sandbox page and select the Source Sandbox by extending “Select Source Sandbox” dropdown and select the Source sandbox from the dropdown list.
- Select the Destination Sandbox by extending “Select Destination Sandbox” dropdown and select the Destination sandbox
- Click on submit to initiate the Migration

The screenshot shows the 'Migration Sandboxes' interface within the 'Deployment Accelerator' application. The top navigation bar includes links for 'OAuth', 'Sandboxes', 'Id Namespace', 'Field Groups', 'Schemas', and 'Datasets'. The main content area is divided into three steps: Step 1, Step 2, and Step 3. Step 1 is 'Select Source Sandbox' and features a dropdown menu labeled 'Sandbox Drop Down'. Step 2 is 'Select Destination Sandbox' and also features a dropdown menu labeled 'Sandbox Drop Down'. Step 3 is a 'Submit' button. The Deloitte Digital logo is visible in the top right corner.

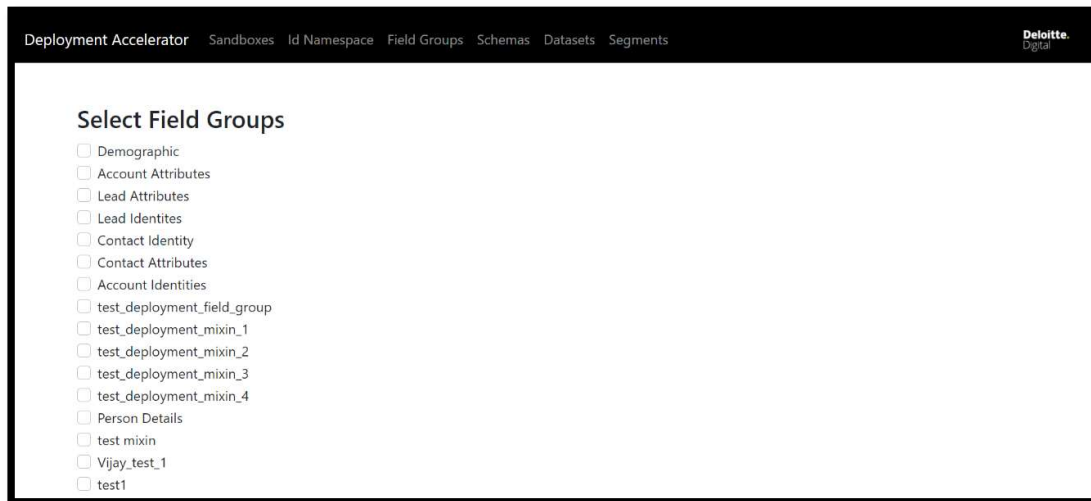

Migrating Identity Namespaces

- Go to Id Namespace page (All the Identity Namespaces available in the Sandbox will be listed out)
- Select the Identity Namespaces to migrate by checking the associated checkboxes.
- Click on submit to migrate the Identity Namespaces.

The screenshot shows the 'Select Identity Namespaces' interface within the 'Deployment Accelerator' application. The top navigation bar includes links for 'Sandboxes', 'Id Namespace', 'Field Groups', 'Schemas', 'Datasets', and 'Segments'. The main content area is titled 'Select Identity Namespaces' and contains a list of identity namespaces with checkboxes next to them. The namespaces listed are: CORE, ECID, AdCloud, Emails (SHA256, lowercased), Phone (E.164), Google Ad ID (GAID), Apple IDFA (ID for Advertisers), Apple Push Notification service, Firebase Cloud Messaging, Adobe Analytics (Legacy ID), Email, Windows AID, TNTID, Google, AppNexus, and Microsoft Bing. The Deloitte Digital logo is visible in the top right corner.

Migrating Field Groups

- Go to Field Groups page (All the Field Groups available in the Sandbox will be listed out)
- Select all the Field Groups to migrate by checking the associated checkboxes.
- Click on submit to migrate the Field Groups

The screenshot shows the 'Select Field Groups' page within the 'Deployment Accelerator' application. The top navigation bar includes links for 'Deployment Accelerator', 'Sandboxes', 'Id Namespace', 'Field Groups', 'Schemas', 'Datasets', and 'Segments'. The 'Field Groups' link is currently selected. The page title is 'Select Field Groups'. Below the title is a list of 17 field groups, each with an unchecked checkbox to its left. The field groups are: Demographic, Account Attributes, Lead Attributes, Lead Identities, Contact Identity, Contact Attributes, Account Identities, test_deployment_field_group, test_deployment_mixin_1, test_deployment_mixin_2, test_deployment_mixin_3, test_deployment_mixin_4, Person Details, test mixin, Vijay_test_1, and test1.

Select Field Groups

- ☐ Demographic
- ☐ Account Attributes
- ☐ Lead Attributes
- ☐ Lead Identities
- ☐ Contact Identity
- ☐ Contact Attributes
- ☐ Account Identities
- ☐ test_deployment_field_group
- ☐ test_deployment_mixin_1
- ☐ test_deployment_mixin_2
- ☐ test_deployment_mixin_3
- ☐ test_deployment_mixin_4
- ☐ Person Details
- ☐ test mixin
- ☐ Vijay_test_1
- ☐ test1

Migrating Schemas

- Go to Schemas page (All the Schemas available in the Sandbox will be listed out)
- Select all the Schemas to migrate by checking the associated checkboxes.
- Click on submit to migrate the Schemas.

The screenshot shows the 'Select Schema' page within the 'Deployment Accelerator' application. The top navigation bar includes links for 'Deployment Accelerator', 'OAuth', 'Sandboxes', 'Id Namespace', 'Field Groups', 'Schemas', and 'Datasets'. The 'Schemas' link is currently selected. The page title is 'Select Schema'. Below the title is a list of 15 schemas, each with an unchecked checkbox to its left. The schemas are: ODE DecisionEvents, Initial Profile schema for Journeys, Initial Experience Events schema for Journeys, Journey Step Profile Event schema for Journey Orchestration, Journey schema with Journey Fields for Journey Orchestration, Account, contact, Lead, Journey Step Event schema for Journey Orchestration, UPS segmentDefinition schema, Adhoc XDM Schema for dataset qsaccel.profile_agg.adwh_likup_process_delta_log (Random identifier: ffba4f9e-2802-4a55-a735-ab72d736c357), Adhoc XDM Schema for dataset qsaccel.profile_agg.adwh_dim_merge_policies (Random identifier: 6082a357-7aa8-4a08-8432-de1b0652231c), Adhoc XDM Schema for dataset qsaccel.profile_agg.adwh_dim_namespaces (Random identifier: 31f55692-4a12-4156-8836-77743b3b19cd), Adhoc XDM Schema for dataset qsaccel.profile_agg.adwh_dim_segments (Random identifier: 15be325b-f988-472c-af4d-2079962ba42c), Adhoc XDM Schema for dataset qsaccel.profile_agg.adwh_dim_overlap_namespaces (Random identifier: c5da13bb-358a-4e19-b5be-e66f48ba4b35), and Adhoc XDM Schema for dataset qsaccel.profile_agg.adwh_dim_destination (Random identifier: a9b33854-0b92-4076-8199-c082de4e10e3).

Migrating Datasets

- Go to Datasets page (All the Datasets available in the Sandbox will be listed out)
- Select all the Datasets to migrate by checking the associated checkboxes.
- Click on submit to migrate the Datasets.

The screenshot shows the 'Select Dataset' page within the 'Deployment Accelerator' application. The top navigation bar includes links for 'Deployment Accelerator', 'Sandboxes', 'Id Namespace', 'Field Groups', 'Schemas', 'Datasets', and 'Segments'. The 'Datasets' link is highlighted. The main content area is titled 'Select Dataset' and contains a list of 18 datasets, each with an unchecked checkbox to its left. The datasets listed are: AA Demo542 midValues, aa transactions, aabb dataset, abc, AdobeAnalytics_Vij_dataset, AEP Member Dataset, amit_dataset, AMIT MOCKDATA, AMIT MOCKDATA3, AMIT MOCKDATA4, Analytics-Practice midValues, ashika_dataset, Bank, BiodataSite_dev midValues, BR_Namespace_Destination, and BR_Segment_Destination. The Deloitte Digital logo is visible in the top right corner.

- ☐ AMIT MOCKDATA4
- ☐ Analytics-Practice midValues
- ☐ ashika_dataset
- ☐ Bank
- ☐ BiodataSite_dev midValues
- ☐ BR_Namespace_Destination
- ☐ BR_Segment_Destination

Migrating Segments

- Go to Segments page (All the Segments available in the Sandbox will be listed out)
- Select all the Datasets to migrate by checking the associated checkboxes.
- Click on submit to migrate the Datasets.

The screenshot shows the 'Select Segments' page within the 'Deployment Accelerator' application. The top navigation bar is identical to the previous screenshot, with 'Segments' highlighted. The main content area is titled 'Select Segments' and contains a list of 18 segments, each with an unchecked checkbox to its left. The segments listed are: Gender is Male, test segment AA, asd, AAM Test Segments, TestPT, testSa, City is Delhi, Cart Abandonment - Test, Autumn Product - View, Sample Batch Segment, New Offline Profiles, Navya_2_segment, Navya_1_segment, AEP Training, Costco Gold Star Membership Upgrade Segment, and Costco Business Membership Upgrade Segment. The Deloitte Digital logo is visible in the top right corner.
